**Matthew Burgett : DRAG: The Book** before purchasing it in order to gage whether or not it would be worth my time, and all praised DRAG: The Book:

2 of 2 people found the following review helpful. Half-a\*\*sed Coffee Table BookBy ohthatlabelThis book was a complete letdown, especially for the high price tag. Clearly there was no editor, because the bios/stories from the queens were not consistent in any way. Some read more like a robotic resume, others told a funny story... there just wasn't a lot of substance. A few of the images were really beautiful, but I wished there had been more lewks overall. For a few of the queens, it looked like there was just a slight variation between two shots and the photographer couldn't choose between them... so he just said "eff it" and put both in. Please... don't waste your coins on this book, go to an actual performance and tip a queen instead!0 of 0 people found the following review helpful. Love it By

Rachael Amazing work and dedication put into this product. I absolutely love my copy!
