Various, David Gaider : **Dragon Age: The World of Thedas Volume 1** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Dragon Age: The World of Thedas Volume 1:

0 of 0 people found the following review helpful. Beautiful, informative tome of Dragon Age loreBy AechWhen I first played Dragon Age: Origins many moons ago, one of the first things I fell in love with was the world and its history. The collector's edition strategy guide contained a brief, but informative lore section, and I ate it up. Codex entries in

the game itself were also equally entertaining, especially because there were some instances where people either weren't sure about what was behind certain events, or their words were colored by perspectives and prejudices. The World of Thedas: Volume 1 is one hefty tome of all of this. There are sections about geography, religion, magic, and other key aspects of this vast, violent world, filled to the brim with details and personal accounts. For those who have played Dragon Age II and Inquisition, you will also see many clues about events that will soon come to pass. Personally, my favorite feature is the timeline that runs along the bottom of every page, from the beginnings of the elven calendar through the "present" year of the Dragon Age, punctuated with key moments and events in this long and eventful history. If you can't get enough Dragon Age lore, and you suspect you may know (or want to know) more about the history of Thedas than the real world that we live in, this is definitely the book for you. 0 of 0 people found the following review helpful. Awesome book! By R33K While I enjoyed the second book more, this book certainly sheds a lot of information on the earlier Dragon Age era. I played all 3 games so far, and while the 2nd game is every one's most hated, it happens to be my favorite. I couldn't be bothered to dive into all the lore while playing origins because it was so incredibly slow paced. So this book really filled in a lot of missing information, and provides a wealth of knowledge that while you can dig through all the WIKI online for free, this book was much more pleasing with how the information was presented. 0 of 0 people found the following review helpful. A lot of it is known information you may have read from a codex but in the book it is beautifully peiced together on a timeline By Sarah Kendall This is exactly what I was looking for to expand my knowledge of the world of Thedas. A lot of it is known information you may have read from a codex but in the book it is beautifully peiced together on a timeline and with additional description. If you love any Dragon Age game, this book Is a must.

For Dragon Age newcomers, this comprehensive volume brings you up to speed on everything you need to know about the regions, religions, monsters, magic, and more! For dedicated fans, never before have the secrets of BioWare's epic fantasy been revealed so completely and so compellingly! * Filled with never-before-seen art by the creators of the games! * New Dragon Age game coming in 2013! * From the writers and artists of the Dragon Age games. The definitive guide!
