BradyGames : Dragon's Dogma Signature Series Guide before purchasing it in order to gauge whether or not it would be worth my time, and all praised Dragon's Dogma Signature Series Guide:

0 of 0 people found the following review helpful. Must Have for this game By margarete I love this game so much but it took me forever to beat it the first time because I didn't know what to do. At first when I read the reviews, I was apprehensive about buying it due to all the low ratings but I bought it anyway and I found it very helpful. While the information is not organized in the way a normal gamer guide would be, there is still a lot of very useful hints, information, and quest info that I could've really used when I first played the game. I would highly recommend this gamer guide to anyone who loves this game. 3 of 3 people found the following review helpful. Terrible organization By A to the K Yes, this guide has most everything you need to reference for Dragon's Dogma. Good luck finding what you need when you need it, though. The information is so disorganized that it has actually become more frustrating to try to reference it than just hopping on the internet and looking at the wiki. Everything is alphabetical so

it's all over the place. Weapons, items, quests... instead of being organized by say, character level, or equipment usable by certain classes is organized alphabetically making it extremely difficult to use the guide effectively. There is no index, which I think someone else made a comment about everything being alphabetical thus eliminating the need for an index. Yea, good luck with that because the guide is pretty hefty and by the time you start flipping through the pages to find what you need you will have forgotten before you can find it. Although at this point the guide is pretty cheap I'd say save your money and reference the internet if you need anything. 2 of 2 people found the following review helpful. **YOU SHOULD GET THIS.** By Jeff **WGET THIS!** If you like the game, you should get this. This explains so many things that would otherwise take a long time to figure out. Some reviews have complained that there is no start to finish walkthrough. That's because it's up to you to choose the quests you take and when you take them to some extent. Lists are alphabetical so you can look up what you need at the time. The book and the game are not perfect, but they are awesome. For me, this game is the best of it's kind right now. (I have the D.A. Version) This book will help you a lot to keep going and level up, so you can beat any enemy. This is a very long game. It gets more fun after you level way up and you can kick ass.

BradyGames Dragon's Dogma Signature Series Guide includes the following: BradyGames leads gamers through a spectacular adventure in this eagerly anticipated RPG from Capcom. -EXHAUSTIVE MAPS detail locations of shops, quests, and other important places. -COMPLETE WEAPON, ARMOR, AND ITEM INFORMATION show official stats. -COMPREHENSIVE BESTIARY reveals each foe's strengths and weaknesses, and how to exploit them to maximum effect. -ACHIEVEMENT/TROPHY ROSTERS describe how to earn each reward.
