Dylan Struzan : Drew Struzan: Oeuvre before purchasing it in order to gage whether or not it would be worth my time, and all praised Drew Struzan: Oeuvre:

0 of 0 people found the following review helpful. Great ArtworkBy ArtistBeautifully put together volume of Drew Struzman's works. An incredible book for fans of his movie poster art!0 of 0 people found the following review helpful. Beautifully done!By Sean LottI am a big fan of Drew Struzan and I am very pleased with the quality and scope of this book. Such a wonderful collection of his works. It spans most of his career (although you won't see his more recent works like Star Wars The Force Awakens or Mob City). Drew is truly one of the greatest artists/illustrators of the past century and this book clearly shows why his work should be appreciated.1 of 1 people found the following review helpful. Those were paintings?? I thought they were photographs!By JetEyeNightDo you

remember all those awesome, iconic movie posters you always thought were photoshopped photographs? Like Star Wars, Indiana Jones, Back to the Future, The Goonies, Harry Potter, etc? Yeah those were actually all painted by hand by the master, Drew Struzan. You get to see most of his most famous works, all in this one volume. The printing is quite good. This is an excellent coffee table art book that is certain to spark hours of conversation.

Drew Struzan has created some of the most iconic movie posters of the last 30 years, including Raiders of the Lost Ark, Star Wars: The Empire Strikes Back, Harry Potter and the Sorcerer's Stone and Blade Runner. This sumptuous hardcover edition, with a foreword by George Lucas, features over 250 pieces of artwork, including all of Drew's most iconic movie images, as well as other highlights from his career, including album, book and comic book covers, stamps, trading cards, promotional artwork and very personal original works. The book comes right up to date, including exclusive San Diego Comic-Con poster art produced for The Walking Dead (2010) and Cowboys Aliens (2011), with text by his wife Dylan, providing an intimate look at the man and his legacy. The definitive collection of Struzan's work; this is an absolute must-have for any movie buff and an unrivalled slice of both art and cinema history.

"The movie posters of your dreams" - GQ "I can't recommend picking up Oeuvre enough. Such a great collection of the man's art; a must own for any movie/pop culture fan!" - Ain't It Cool "It would be tempting, looking at this massive book, to simply be reduced to a quivering mass of fanboy enthusiasm shouting hosannas, but it's the presentation of the book that denies such a simple response. Save for an introduction by George Lucas, it is almost entirely free of text or explanation, presenting several decades worth of work almost as free association. The effect is both overwhelming and personalizing, as if it were the man's private notebook printed in perhaps the most elegant form possible." - Just Press Play "The gorgeous art book you must own." - Badass Digest "... incredibly comprehensive and gorgeously presented... if you've got a poster-geek in your life, this is a must for them." - Movies.com "Easily the best coffee table book I own." - Film.com "One of the best purchases I've made this year, and a must have for any film fanatic." - SlashFilm "If you're a fan of pop art, Star Wars or Drew Struzan, Oeuvre would make a fine addition to your library." - Topless Robot "A must own book for any movie or art lover." - Geek Tyrant "This book is truly a thing of beauty a real must-have for movie buffs and art buffs alike." - Nerd Approved "As far as a career-spanning retrospective, Oeuvre is hard to beat." - The Playlist -- "My favorite movie artist" - Steven Spielberg "One of the very best" - George Lucas "Struzan created some of the most indelible images of our time" - Leonard Maltin About the Author Drew Struzan's art is some of the most iconic in modern movies, with the artwork for over 150 movie posters to his credit, including all the Star Wars, Back to the Future and Indiana Jones movies, Harry Potter, E.T., Big Trouble in Little China, The Goonies and the Muppets. George Lucas dubbed him "the only collectible artist since World War II" and Steven Spielberg called him his "favorite movie artist". Drew is the author of the massively successful The Art of Drew Struzan - also published by Titan Books. Dylan Struzan is an author and Drew's wife. George Lucas is an American film producer, screen-writer, director and founder/chairman of Lucasfilm Ltd. He is best known for being the creator of the space opera franchise Star Wars and the archaeologist-adventurer character Indiana Jones.
