Brett Murrell : Duel of Ages II Codex before purchasing it in order to gage whether or not it would be worth my time, and all praised Duel of Ages II Codex:

3 of 3 people found the following review helpful. The cover is really beautiful with vivid colorsBy John IbarzaballIf you are a fan of the game, this is a must purchase.The cover is really beautiful with vivid colors, and I would gladly pay more for a hard cover, but the soft cover is not bad.The first session in this book is the Master Rulebook, the same one you can download as a PDFSince the game comes with only the basic printed book, you now have the master (Although I have printed it separately)The book really shines in the other chapters.There is a chapter on setup strategies, team building tips, a very big chapter with detailed strategies and analysis on each of the characters in the game.And let me tell you, these are all very deep analysis... clearly written by someone with a LOT of experience in the game.Again, it is a very safe purchase, if you like DOA2, this is a must.2 of 2 people found the following review helpful. Bigger and better than I was expecting!By David Stahler Jr.Much better than I was expecting. The large trim

size was a pleasant surprise. Not particularly fancy in terms of graphic design (kind of like the game itself), but very cleanly laid out, nicely printed, and an effective use of the artwork. A perfect book to read through or just pick up and browse. In terms of content, it packs quite a punch. Inside you'll find the full master set rules, including all the missions, the full QA, an AWESOME strategy guide that really deepened my appreciation for the game, followed by a "monster manual" type encyclopedia of ALL the characters. Each features a great little overview of the character and its strength and weaknesses. A very worthy purchase for fans of what I consider to be one of the best boardgames of all times. 1 of 1 people found the following review helpful. An awesome read and great insight into the strategy and tactics ...By Customer An awesome read and great insight into the strategy and tactics of the duel of ages II board game! Nice to get the set of rules all in one book too!

The Duel of Ages II Codex: Over 200 large-format pages of the original uncropped art, the perfectly polished rules, and the in-depth strategy guide. Whether you are a DoA II basic player, or have all the Master goodies, this is your complete resource rolled into one magnificent, full-color codex.
