**Hiron : Duo Card Game** before purchasing it in order to gage whether or not it would be worth my time, and all praised Duo Card Game:

0 of 0 people found the following review helpful. Great card game for familyBy M. AufderheideSince Christmas, we have spent hours playing this game as a family. Easy for everyone to learn. Each card game last about 10 minutes yet no one wants to stop playing! Too much fun!!!Game option:We showed the kids how to play by themselves by trying to layout their own seven cards in a sequence that uses up the most cards in their hand without drawing more. I don't think anyone has done it in under 10 cards...yet!This will be a game that travels with us on all vacations!We purchased an extra set to be a gift but now it may find its way into the car glove box.0 of 0 people found the following review helpful. good game, variation on UnoBy \_customerwe love playing board games and card games with our kids. This is a good game and next step after Uno for little ones (and older ones). Arrived fast and as described.0 of 0 people found the following review helpful. Great Mind Game for SeniorsBy momcpsLove this game! First played it at a friend's house. Did not find it at local stores and so ordered it online. Very happy to have this card game. As a senior citizen I try to play games that require some thinking but not so much as to be no fun. This one fits the bill perfectly!

If you enjoy Uno, double your fun with Duo! Be the first one to play all your cards to the discard pile, matching two out of three elements on the cards: colors, numbers, and symbols. A lively, fast-paced game. For 2 or more players, ages 7 to ault. Cards measure 2-1/4" x 3-1/2".
