I've played through Skyrim with all of its DLC, but when the remastered version was announced for Xbox One, I HAD to check it out! Once I did some research, I knew that this game and its book was getting pre-ordered! After receiving both of these gorgeous gems, I must say that I'm completely enamored! Bethesda did not disappoint on their game play, and Prima came through on this guide. It's thorough, beautifully made, and laid out in a fashion where anything you may need can be found. The beautiful hard-bound cover is gorgeous to look at, and the bonus bookmark has already come in handy. In the past, I've used sticky notes, and by the time everything is said and done, the guide is a colorful place. 6 of 6 people found the following review helpful. You can find anything and everything you need in the book. Including a language guide 1 of 1 people found the following review helpful. Great Guide/Collectors Item By Justin Lunetta As far as guide books go, this one is about as perfect as you can get without using the internet. All of the quests

are presented in plenty of detail, all of the items/weapons/spells/shouts/etc are listed in easy to use sections and there is even a nice, comprehensive index at the back if you are looking for something specific. As far as books in general and collectors items are concerned, it's very cool. It's an absolutely massive book and if you have any of the other Prima black hardcover (like their dark souls/bloodborne series) strategy guides this will look great sitting next to them.

A landmark guide returns! To coincide with the launch of The Elder Scrolls V: Skyrim Special Edition, Prima Games has re-released the celebrated strategy guide for fans and new players alike.
