This book is tiny but FULL of greatness! Don't let the size fool you. Although I actually like the size, it's easy to hold and flip through. The cover features a stunning photograph of Her Majesty in 1952 or 1953 I believe. I have over 150 books on The Queen/Royal Family, so it's safe to say I've seen a good majority of the photographs of the Queen, so whenever I see a new book that features photo's I haven't seen before, It makes me so excited. This book featured 10-15 photos easily that I haven't seen before. Some colour and some black and white. They are INCREDIBLE! The information is fantastic too, I know a great deal on the Queen and her clothing but I learned a lot of new things. If you love the Queen and her fashion, this is a MUST HAVE for you. You will not be disappointed.0 of 0 people found the following review helpful.
