Matthew Rettenmund : Encyclopedia Madonnica 20: Madonna from A to Z before purchasing it in order to gage whether or not it would be worth my time, and all praised Encyclopedia Madonnica 20: Madonna from A to Z:

7 of 7 people found the following review helpful. The Madonna Bible! It's the Ultimate Guide By Madonna_BadGirl Matthew Rettenmund has done it again with this massive informative tome that I am sure Madonna herself would approve, I loved the original EM that he released in 1995, Now EM20 is up to date and has color photos and fan spotlights from Kickstarter contributors and beautiful Madonna art throughout, It is an A to Z on anything and everything you ever wanted to know about her this is your one stop Madonna shop, there are a few errors but that is forgivable when you are writing about a woman of her caliber she has kept all of the world on the edge of it's seat for 33 years! Madonna's art is unending, a lot of ground to cover so Matt you done well! Your passion for Madonna shows in your work! Thank you for updating and making a already good but even better. I am still reading this incredible book it has 581 pages nearly 600 pages. Encyclopedia Madonnica 20 is a brilliant Masterpiece and should be on any

Madonna fan's bookshelf.5 of 5 people found the following review helpful. The Indispensable Must Have Madonna Book By Michael in Minneapolis An updated book (version 2) that's replete with everything important about Madonna from her career to personal life up to 2015. Is as thick as a phone book and well worth the \$65 price tag. No book is as detailed or complete as this one!0 of 0 people found the following review helpful. Can't wait for Version 3.0!!!By CustomerIt's amazeballs. So worth it.Only Qualms: I get that it takes lots of money to acquire the rights to utilize certain images for publication this greatly affects EM20. Several of the album singles covers are miniscule. The beautiful images adorning the iconic long-players such as 'Erotica' 'Confessions on a Dance Floor' deserve to be amplified accordingly as well! There are other examples of this but it's all really minute.The quality of the book could use an upgrade. The cover is too thin for a book this large in size subject matter grandeur, heheh. I think in the future a hardcover would suffice! Also the printing on some of the pages is of bad quality, often accompanied by streaks of fading color (low on the toner?)Also wish there were more visuals from her amazing photographic collaborators (both Stevens ((Meisel Klein)), Mert Marcus, Mondino, etc.. There's a grip of candid 80s pics featured in the book which is pretty chill.Other than that, it an amazing addition to your Madonna memorabilia or your music geek book collection.

The standard edition of the ultimate book on the Queen of Pop: Madonna! This twentieth-anniversary edition of the book that gets it all down (and gets it all right) is filled with never-before-seen and rare images, as well as fresh interviews. This encyclopedic tome covers every aspect of Madonna's life and career: music, movies, TV, love life, family, tours and more.

About the Author Matthew Rettenmund is a writer and editor who lives in New York City.
