One example from the book: "Everyday Bertha travels 30 miles in the course of her work. She does not travel in a wheeled vehicle and never has problems with the traffic, the police, weather, or airports. What does she do?" The answer reads, "She was 'Madame Guillotine,' the deadly invention of Joseph Guillotine that was used in France to execute people." Another example: "A hungry man has food on his plate but doesn't eat it. Why?" Answer: "His plate is his dental plate." One more: "The police found a murder victim and they noticed a pair of tire tracks leading to and from the body. They followed the tracks to a nearby farmhouse where two men and a woman were sitting on the porch. There was no car at the farmhouse and none of the three could drive. The police arrested the woman. Why?" Answer: "She was the only one in a wheel chair." There could be many answers. I kept flipping pages, thinking they would get better, but no. 4 of 4 people found the following review helpful. So much more than I was expected - so many ... By SmudgyToes So much more than I was expected - so many different varieties of activities - it is literally packed FULL. Definitely worth the buy! 1 of 1 people found the following review helpful. Great mental stimulation! By Tara Evans Bought it for my Fiancee who is incarcerated. He likes it. It occupies his time and he says the puzzles force your mind to work and try and think outside the box. When doing it time flies for him

which is the main reason I bought it. THAT and for mental stimulation. Overall a great purchase. Would recommend it to those on long flights or just typically bored.

If theres a kind of puzzle not included in this incredibly varied collection, we cant imagine what it is. There are math problems, lateral-thinking conundrums, brain teasers, whodunits, IQ tests, trivia quizzesas well as an assortment of baffling optical illusions and amazing stunts using paper, scissors, and other items found around the house. Its nonstop fun, but every one of these challenges will enhance real-life problem-solving skills. If you wrote down all the numbers from 1 to 100, how many times would you write the number 3? How old do you have to be to become a U.S. Senator? What 11-letter word is pronounced incorrectly by more than 99% of Ivy League graduates? (Answers: 20, 30, incorrectly.)
