Eric Sloane : Eric Sloane's Weather Book before purchasing it in order to gage whether or not it would be worth my time, and all praised Eric Sloane's Weather Book:

0 of 0 people found the following review helpful. Get it!By tmd1965If you want to in-depth laymans introduction to Weather, this is it! With this book and a season of observation, you will be better educated than most of the population about weather patterns and forecasting.1 of 1 people found the following review helpful. Don't pass this one up.By Love of LearningThis is the book that professional ship officers read before they take meteorology classes so they have a basic understanding of how weather works. Life is more rich and amazing after reading this. Wonders are before you every minute that you'd never notice before reading this.0 of 0 people found the following review helpful. GREAT LITTLE WEATHER PRIMERBy GrannyKGreat little book for a quick read about weather. Good for adults and students.

"Amateur weather forecasters (which includes just about everyone) will find this volume an informative and entertaining account of the why and how of the weather." *The Nation*In simple language, Eric Sloane explains the whys and wherefores of weather and weather forecasting and does it in a style that's universally appealing. With humor and common sense shining through in a book that's also lively and informative, Sloane shows readers how to predict the weather by "reading" such natural phenomena as winds, skies, and animal sounds. This beautifully illustrated and practical treasure trove of climate lore will enlighten outdoorsmen, farmers, sailors, and anyone else who has ever wondered what a large halo around the moon means, why birds "sit it out" before a storm, and whether or not to take an umbrella when leaving the house.

About the AuthorThe books of Eric Sloane celebrate the time-honored traditions of early America and remind us of the ties that forever bind us to them. A prolific artist, Sloane created nearly 15,000 paintings and drawings over his lifetime, many of which enhance his delightful books of bygone days.
