I guess you learn a thing or two from being around and working with them all your life. I also enjoyed the behind-the-scenes aspect of the book. Too bad the pictures in the back were a little difficult to see, even when zoomed in, on the Kindle Fire. The picture collage didn't work as well on this format. All in all a good read. 1 of 2 people found the following review helpful. not great By Jamie It's the same old same old. I wanted to like this, wanted to find some method to the madness, but I didn't, just more worship of kids she loves, bashing kids she doesn't. Oh well, at least I didn't buy it hardcover. 1 of 2 people found the following review helpful. Four Stars By Customer The book cover is a little damaged
