**Howard Sounes : Fab: An Intimate Life of Paul McCartney** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Fab: An Intimate Life of Paul McCartney:

1 of 1 people found the following review helpful. Not much new than already known By ekfsI did not finish to read the book yet, but i'm about more than half and I found just very few new aspects of Paul Mc Cartney life that was unknown, about the beatles, all said here was already said in documentaries, the Anthology video and in the Linda MC Cartney Biography film seen on TV. Anyways, the book of course give you a more detailed review of the events in Mc Cartney life. The book is not boring, is fun to read.3 of 4 people found the following review helpful. Fab - notBy

allieAs soon as I started reading this book I felt like I spread out all of my Beatle books and took snippets out of each one. Maybe I could write a book too!But what baffles me is why the author refers to Ringo as Ritchie throughout the book. ie: John, Paul, George and Ritchie. Is he trying to change history?If you would like a book that doesn't have an easy feel to it I would suggest "Paul McCartney - Many Years From Now". But it's an older book so you don't get a semi-nude picture of Heather!  
0 of 1 people found the following review helpful. Nothing new here...By InglesIf there is anything new in this book, I have yet to read it. This could easily have been a rewrite of all the other books that have been written about the Beatles. McCartney comes off as a more sordid character in this book than in the previous ones. I love the Beatles music , but as these books come out, I am less in love with them as people.

Howard Sounes, the bestselling author of *Down the Highway: The Life of Bob Dylan* and *Charles Bukowski: Locked in the Arms of a Crazy Life*, turns his considerable reporting and storytelling skills to one of the most famous, talented and wealthiest men alive: Paul McCartney. *Fab* is the first exhaustive biography of the legendary musician; it tells Sir Paul's whole life story, from childhood to present day, from working-class Liverpool beginnings to the cultural phenomenon that was The Beatles to his many solo incarnations. *Fab* is the definitive portrait of McCartney, a man of contradictions and a consummate musician far more ruthless, ambitious, and moody than his relaxed public image implies. Based on original research and more than two hundred new interviews, *Fab* also reveals for the first time the full story of his two marriages, romances, family feuds, phenomenal wealth, and complex relationships with his fellow ex-Beatles.
