As with all strategy guides, it takes you step by step through the game. It also tells you details about how to obtain collectibles and achievements. Bonus features are beautiful illustrations and stories about the making of the original Fable. It also has a few dlc codes.2 of 2 people found the following review helpful. Was very helpfulBy Nickolas MorgaanI know that you can get most of this stuff online for free. However, I bought this for two reasons. 1 - It is hardback and collectable, 2 - It had the smartglass app and bonus DLC codes come free with it. I already bought the smartglass app on Live beforehand, but I used the other DLC. I constantly checked this book back and forth for help on achievements when the smartglass app was glitching on me and used it to verify locations. Using the two

together is amazing because both have something that the other does not. A must for Fable fans. 1 of 1 people found the following review helpful. Beautiful! By Krystal I have been a Fable fan from the very beginning and this book just makes me happy. It is so beautiful and filled with great stuff about the game and the complete walk-through and how to find everything. It's just a great book and an even better addition to my ever growing gaming collection. I really couldn't have been happier with this book.
