Best Book in the SeriesBy speedy162005I originally got this book back in the 2000 when it was published in the Wide Book format and spent many an hour adventuring away in this book. The Court of Hidden Faces with the blue skinned faceless lords and Holyamu the Unbidden was by far my

favorite book in the set and I couldn't wait to get my hands on it when they republished it in this new format. This is probably the book I have spent the most time in of the 6 books and if you've never played it before, it would be a great starter book. 0 of 0 people found the following review helpful. An excellent addition to the series. By johntfs Once again the Fabled Lands series delivers a brilliant, evocative setting for adventures, this time in the corrupt, twisted realm of Uttaku. While it, like other Fabled Lands books can be played by itself, this book works best as part of the continuing whole and most especially with Book 4. Play together the two works allow your character to cause huge changes to the realm and participate in an epic adventure. Buy this book immediately if not soon. 5 of 5 people found the following review helpful. Best Gamebook Series to date By Nema These books took the concept of a solo gamebook to the next level. The ability to travel a whole world by going book to book was done incredibly well. Being a person who loves a good pen and paper adventure but never has a storyteller/gamemaster to run games with, I love this series as it scratches that itch perfectly.

Set out on a journey of unlimited adventure! FABLED LANDS is an epic interactive gamebook series with the scope of a massively multiplayer game world. But rich rewards await the adventurer courageous enough to penetrate this hostile land. Will you uncover the secrets of the High Kings citadel, where no mortal has trod for ten generations? Or wrest the holy sword from the crypt of Kizil Irmak, the Harbinger of War? Or find the key that unlocks the greatest secret of all the means to open the gate of Time and travel back into the past? Your fate is in your own hands. You choose your skills, your goals, where you will venture and what you will do. The only limit is your imagination. The choices are all yours.
