Elias Chatzoudis : Fairy Tales by Elias before purchasing it in order to gage whether or not it would be worth my time, and all praised Fairy Tales by Elias:

For the price, expected and hoped for moreBy Rob DI like seeing a "sketch" version and then the colored, finished product, so that aspect of the book is nice.But it is skimpy!! And it could just be the copy I got, but the quality of the paper (glossy, but very thin) and binding feels very cheap! Almost feels like someone printed it on a home printing press.Other than that, the artwork of course is very nice, but I felt for the \$price\$, additional art and a better quality product should be offered.0 of 0 people found the following review helpful. Everyone has their favorite fairy tale growing up, but artist Elias Chatzoudis presents us with a more grown-up look at those beloved stories. See the sexier side of Snow White, Tinkerbell, Cinderella, the not-so-Little Mermaid, and all the other legendary characters of yore. Both the pencilled originals and the fully-realized color illustrations are showcased in this exquisite collection.
