Really not worth it in my book. It will make for a nice decoration, but not worth it for what you get. It is essentially overpriced memorabilia for die-hard fans that bought into the hype.If you want the lithographs, map, and strategy guide, then buy it from for much cheaper. If you realllly want the other goodies, then I'm not

stopping you, but this is what you get for the cost. 25 of 26 people found the following review helpful. Save your money buy the 23 dollar book! By JGaroutte I felt like it was a rip off in a way. You're paying more than double the price for a calendar, bottle caps and bottle opener and a sleeve that goes over the book. You take the sleeve off and it's the same book that only cost 23 bucks. 19 of 20 people found the following review helpful. Missing Lithograph card.... By Jesse H. I was highly impressed with this book, however inside the Vault-Tech Sleeve mine came without a "A" lithograph!? I only got six out of the seven!?
