I have always tried to draft on my own but I would always finish middle of the pack, so I am taking a different approach this year. The FFB Draft Guide is very thorough and insightful, I plan to use this as a guide to help cross reference my drafting than actually using it as the main foundation. Overall impressed by the amount of detailed packed in 124 pages.

He also has good tips on sleepers and over rated players. I used the Greek last year and finished 3rd in my league. This year I expect to finish first !
