Sam Hendricks : Fantasy Football Tips: 201 Ways to Win Through Player Rankings, Cheat Sheets and Better Drafting before purchasing it in order to gauge whether or not it would be worth my time, and all praised Fantasy Football Tips: 201 Ways to Win Through Player Rankings, Cheat Sheets and Better Drafting:

7 of 7 people found the following review helpful. Another Winner from HendricksBy Jeremy CrowhurstFor the most part there are two kinds of Fantasy Football books out there. The first is the basic, introductory "draft RBs before kickers" kind of book. The second is the goofball theory book -- books that, while far from comprehensive overall, describe in great detail the brilliant, wonderful theory that made the author the best fantasy football player in his league two years out of the last ten. The optimist in me thinks the authors of the latter group are people who got lucky, and haven't really subjected their theories to much scrutiny, whether by peer review, computer simulations, or just looking at data. The cynic in me thinks these authors are deliberately peddling crappy ideas, using their (cough) name to cash in without revealing any "real" secrets of the trade. The realist in me suspects that probably there's a some of both going on in most of those books. In my view Sam Hendricks is the only author out there who is both writing at a high level, and writing honestly about his approach to winning at fantasy football. This book is a gold mine of information, containing valuable tips that you aren't going to see anywhere else. In addition, he isn't shy about calling out some of the nonsense that passes for accepted wisdom in fantasy football canon, and when he does, he backs it up with a solid logical argument. Tip #64, for example, blows away one of the central theses of Randy Giminez's "Dominate Fantasy Football" in less than 400 words, and after reading both, I'm basically ready to use Giminez for kindling. He's wrong, Hendricks is right, it's that simple. I think a handful of his tips are questionable, but so many of them are so on the money that it makes this book worth far, far more than what he's charging for it. Sure, he could use some help in the editing department -- I grate my teeth every time I read "Jay Cutler or P. Manning", or "ARZ WR Larry Fitzgerald" in a paragraph of prose. Spell 'em out, bro, it doesn't cost you anything and, as you say often enough, consistency is a good thing. Why this guy doesn't get more credit is beyond me, but a BIG part of me is glad that nobody's reading his stuff. The last thing I need is for my opponents to get better. Now if he could just clean up his yearly Almanac....0 of 0 people found the following review helpful. fantasy football tipsBy gator42This fantasy football book will help the player who is moving from playing in free leagues(ESPN,FOX SPORTS,etc) to their first money league. Some tips you may want to use as you are new to the money leagues. Enjoy the book.0 of 0 people found the following review helpful. Great book!
