From Brand: Scalo Publishers : Fashion: Photography of the Nineties before purchasing it in order to gage whether or not it would be worth my time, and all praised Fashion: Photography of the Nineties:

0 of 0 people found the following review helpful. DisappointedBy The Cheeky TartAlthough this book did provide a handful of interesting photos of Stella Tenant and Kate Moss, overall, its not worth the buy if you're looking for a real 90s fashion focus. On the whole, the book is filled with strange images of nudity that hinge on vulgar and strange. For that reason, I wasn't impressed with this book. Having come of age when 90's photography was at its height, I was disappointed to not see some of the more glamorous photography of that period - the true dark grunginess of the time - one of my favorite parts of the 90's. I wish the book had shown more photos of models than of the miscellaneous men and women in the buff. If that's what you're looking for - I would recommend Mario Testino's many fashion photography books, more colorful and fun than Fashion: Photography Of The Nineties.2 of 3 people found the following review helpful. Grunge is unfairly maligned,and I believe this proves itBy A CustomerI LOVED

the whole grunge, "heroin chic" movement-NOT for its drug connotations, but because FINALLY the spackled-on make-up, the foo foo clothes, the ridiculous glamour lighting, it all ceased. Here you've got a rare, gorgeous pic of Stella Tennant WITH her nose ring (she looked SO much better with it!), by Paolo Roversi no less. You've got a vaguely punkish Rosemary Ferguson, by Corrine Day. Other major photographers are also represented-Juergen Teller, Craig McDean, Mario Sorrenti (Rachel Williams with raccoon eyes, a belly-button ring...and little else;)....the list is endless, really. This is a really COOL book, it is the very DEFINITION of cool. And it may change your mind about grunge!
