Todd Selby : Fashionable Selby (The Selby) before purchasing it in order to gage whether or not it would be worth my time, and all praised Fashionable Selby (The Selby):

0 of 0 people found the following review helpful. Fashionable Selby! Interesting title, interesting book, a must have for the creative soul! Unique and Inspiring! Fun fun fun By Kat =^.^=Hi, what an absolute wonderfully interesting book! Loads of colorful photos, verbiage, by designer, very interesting, and if you are into design, and fashion, this is the book with a ton of inspiration. Lovely very large book, great for coffee table, and that student of design for sure. I am interested in fashion and wanted to get some ideas for sewing and what makes some designers tick, their

inspiration, passions and how they do it! Got a lot!The book is 11 inches by 8 inches by almost 1.5 inches thick! Drawings, pictures of the designers, their craft and stories. I loved it, Quite interesting indeed.Quote "understanding the importance of skill, passion and craft., the foundation of great fashion!" YES This book is 345 pages, it will take you awhile to go through it! Also the pages are lovely, thick quality, just overall a lovely book and well made.I hope you find my review helpful, This would make a very unique gift for sure. Some of the designers you might think are out there, but I love the creative souls, as I am one of them, and appreciate their creations and stories! Have fun, this is a great read and a conversation piece of a book! Enjoy! Kat =^.=0 of 0 people found the following review helpful. Love this bookBy KDMI can see how this book might not be everyone's cup of tea. But if you love the vibrant, wild and freestyle of the creative mind, than this is a book for you. The book's format will draw you in to each artist/designer's world with luscious pictures and then it will make you work while you read the wildly written question and answer portions (I'm still trying to interpret some of the writings!) This may sound bad, but to me it had the opposite effect...moving me closer to each subject while requiring me to slowdown and take the time to be enveloped by each artist. I love the birds eye view into the studios, the illustrations and sheer force of creative energy. For me, Todd Selby hit it out of the park!!2 of 2 people found the following review helpful. Packed with Insight into the Creative ProcessBy Alfred Steiner IIIAs an artist, it's difficult to read even a few pages of this book without getting new ideas about what I might want to make next. If you're looking for insight into what fuels the fashion industry's creative engine, this book delivers. See directly into the living and work spaces of fashion's biggest names and it's up-and-comers. Read Todd's quirky interview questions and his subjects' inventive responses. The book's lavish production, prodigious size and aesthetic punch make it a great bargain. I highly recommend it to those on the Fashion World's creative side and anyone else who wants to see visual ingenuity in utero.

The next installment in the bestselling Selby series, Fashionable Selby explores the kaleidoscopic world of fashion, featuring profiles of today's most interesting designers, stylists, haberdashers, models, shoemakers, and more. The subjects include a mix of the avant-garde, the traditional, the must-haves, and the totally unexpected. Chapters on individual artists bring readers inside their studios, workshops, and homes, and include Selby's signature photographs and watercolors of not only the artists and their environments, but also the things that inspire them, the materials they use, their creative process, the people who work alongside them, and the final pieces. From the showroom of one of the Antwerp Six to the studios of Central St. Martins in London to a punk knitter in Brooklyn, Selby captures some of fashion's biggest names, rising stars, and best-kept secrets.

Its a kind of voyeurism meets tourism, and its a thrilling journey to make.
