**First Last : FETISH FANTASY FASHION** before purchasing it in order to gage whether or not it would be worth my time, and all praised FETISH FANTASY FASHION:

A stunning display of arguably the most amazing collection of fantasy and fetish costumes ever created. Over 240 glorious color images contained in a high end A4 size hard cover book. For well more than a decade, Mercedes Gen have been designing, creating and wearing the most fantastic and erotic costumes in the worlds of fantasy and fetish fashion. The costumes have appeared at events around the world as well as on the covers and in the pages of iconic

newspapers and magazines. A lot of these creations have been described as classics and are now labeled Works of Art by leading names. The book displays these costumes in great settings and in cases includes original sketches and concept descriptions. Mercedes Gen are both complex and accomplished people who lead intense, multi faceted lives. How do two people as successful and active as this keep their relationship fun, vibrant and exciting? They have created an exotic universe that has kept the joy of fantasizing and playing together fresh, fun and alive! Fantasies and fetishes are as individual as people: everyone has their own particular thing, but this book covers a broad spectrum and almost everyone will find something that produces a spark. Fans of catsuits, corsets, coats, boots and masks in latex, leather and vinyl, will all discover extraordinary creations.
