**Prima Games : Final Fantasy Box Set 2: Official Game Guide** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Final Fantasy Box Set 2: Official Game Guide:

46 of 48 people found the following review helpful. Errors in guide, content missing. By Kimberly FFXII guide is almost page for page identical to original soft cover version. The original guide was missing maps and treasure tables for the Zertinian Caverns, Garamsythe Waterways, and Barham Passage. I would have expected this content to be added to the updated guide considering the game came out in 2006, but it is all still missing. 2 of 2 people found the following review helpful. Really great set. By Kitcat My boyfriend liked these so much he barely uses them. I know that sounds funny, but they are really nice books. He uses an old beat up copy that's falling apart. I would recommend these books to anyone who likes the series. Some do not like these guides but we find them to be very helpful. 15 of 17 people found the following review helpful. Underwhelming. By Yun Liv Is it me or is this underwhelming. Great pictures, the list of weapons, armor, monsters, aeons, etc are good, the walkthroughs are short and limited. Considering what you have to pay, could be more detail. gamefaq seems to have better walkthrough.
