Piggyback : Final Fantasy XIII: Complete Official Guide - Standard Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised Final Fantasy XIII: Complete Official Guide - Standard Edition:

0 of 0 people found the following review helpful. Great Guide!By TAllstunI really enjoyed using this guide, and found it to be very helpful. The layout is very clean, they make good use of the space they have on the page, and I found the walkthrough for the main story to be easy to follow and helpful. It gave good advice on party formation and enough instruction for boss fights that I felt prepared without spoon-feeding it to take away the fun of the fight in the moment. It also did a good job of pointing out viable grinding spots, which helped make leveling up more targeted and feel like

less of a waste of time. I'm glad I purchased their other guides for the rest of the trilogy - if they are anything like this one, I feel like it is definitely money well spent! My one big complaint, and the reason this is not a 5-star review, is with the c'eith missions section - that area is so large and the guide crams all of the missions into a few pages, so finding exactly where the start point is can be tricky on the tiny maps. They also do not indicate where the actual location on the map is, just the name of the area, so you have to do a little flipping and research on your own to figure out where the mark is located. Overall, though, I think this did help keep it a bit more fresh for me instead of losing some of the "thinking" part of these missions. 0 of 0 people found the following review helpful. Arrived used and in fantastic condition. I got to the end of this ... By Customer Arrived used and in fantastic condition. I got to the end of this game and then abandoned it for a few years and forgot everything. When I decided to replay it, I wanted to get towards the end as fast as possible, which this guide is allowing me to do. 1 of 1 people found the following review helpful. Really helpful guide By Tippy I already beat the game back when it came out and thought I'd come back to finish all the side missions. I bought this guide and it really helps. It does a good job of guiding you through the missions, what strategy is best for a specific battle, and so on. The guide is pretty thorough and gives detailed information on everything you need to experience this game to the fullest.

Every secret, every side-quest, every mini-game, every bonus, every Achievement and every Trophy revealed and explained in a dedicated Extras chapter. Dedicated walkthrough charts the most rewarding path through this epic adventure. Strategy Analysis chapter exposes hidden mechanics, advanced battle tactics and techniques for obtaining optimal rewards. All-encompassing Inventory and Bestiary chapters feature exhaustive lists and tables covering all enemies, weapons and shops. Bears all the hallmarks of a Piggyback guide, including annotated maps, hi-res screenshots and a wealth of exclusive, official artwork. Carefully designed to avoid unnecessary story spoilers.
