You could buy this in addition to the official type of guide without wasting your time or money because it is a different approach. By Patricia S. Morriosn A very helpful guide, particularly the initial general advice. I also used the recipe guide extensively. I wish the author had included a fishing guide. You could buy this in addition to the official type of guide without wasting your time or money because it is a different approach to a guide and in some ways better. 0 of 0 people found the following review helpful. Everything you need to 100% the Story. By Customer 1997 Great guide, Easy to use and navigate around the game to make a complete 100% story. Was easily able to collect all achievements in a single play through with the guide. People at work think I'm actually reading something fancy since I always carry it with me. If you haven't picked it up and love this game I highly recommend it.
