Sections rendered useless with Crown UpdateBy Kami AmayaWith the day one update, or "Crown Update", sections of the guide have been rendered useless. Now, I'm not blaming Piggyback at all, they've even went as far as releasing a free PDF file with changes/additions. No, the blame for that rests on Square the gaming industry as a whole, and the need to ship games ASAP even if they're incomplete. Day one patches should not be a normal occurrence. But anyways, I'm getting off track.I'm still playing thru FFXV and haven't used the majority of the walkthrough section, so I can not comment on that yet. However, sections like Fishing Cooking are the most incomplete, again because of the update. Cooking only lists 46 recipes instead of 105. Fishing sections list 40 fish instead of 100. The Lure info is highly lacking, and one will spend hours fishing incorrectly if one does not use the free update. I know, it happened to me.Another thing I've noticed is that some of the maps are different compared to the in game map and it becomes even more noticeable when running around looking for items. My brother suggested that maybe the book maps are based off the minimap, which indeed looks different from the low-res world map.Sadly, I wouldn't recommend this at all, no matter how awesome the hardback looks feels. High quality pages, not cheap thin paper like, for example, the World of Final Fantasy guide from Prima. Doesn't feel like it's going to fall apart or break the binding when I use it. It's definitely one of the better hardback guides I've bought. I just wish Piggyback would offer a reprint and maybe a trade-in for a guide that included the day one patch stuff.Until this gets a new version, stick to gamefaqs.com.EDIT 12/11/2016: Sadly, after very careful occasional usage the binding has

broke. I don't know whether to rate this a 2 or 1 star now. 0 of 0 people found the following review helpful. Awesome Quality Awesome Guide By Tristan A. Hayes This hardcover guide was really good for the game. Some may say that because of the continuing update of the game in terms of balance changes and additional content that it is rendered useless but this is not the case. I found that it is awesome for going through the story still, this many months out from release. Additionally, I've found the maps to be incredibly helpful. It is something nice about having the map in my hand versus trying to look at a pc screen. They also have highlighted the proper routes to take during many moments in quests. Lastly boss strategies remain relevant with weaknesses and drops accurately detailed. Dialogue choices remain relevant as well. Overall I used this guide extensively during my 84 hour playthrough of the game and found the detail of the hunts and weakness and locations, maps, quests, and how to go through stealth missions useful. Awesome collectors item and awesome guide. 1 of 1 people found the following review helpful. I'm rating the guide By tefan The guide itself is good and what you'd expect. Over the years guide books had to be sectioned due to side quests and this one is no different. Some parts of the game is not found in the guide since they changed stuff while probably it was being printed. I blame Square for treating this game as an mmo than a finished game.

The 100% complete guide to Final Fantasy XV: all missions, all side quests, all secrets, all collectibles, all Trophies and Achievements at your fingertips! Exclusive to the Collectors Edition: a premium lithograph, an extra 32-page section with many additional and exclusive features, and an extra-large map poster. The dedicated Walkthrough charts your critical path through the main narrative. It also provides regular prompts and tips directing players to side quests and other optional features within the game world of Eos, allowing for a fully streamlined experience. All-encompassing Bestiary and Inventory chapters feature extensive lists and tables covering all enemies, all weapons, all accessories, all items and all shops. Every secret, every unlockable, every New Game Plus bonus, every Trophy and every Achievement revealed and explained in a dedicated Extras chapter. All game systems decoded: statistics, diagrams and analysis from our experts provide a comprehensive understanding of all game systems and features. A handy map poster covering the entire game world. The 10th consecutive Piggyback guide to a major Final Fantasy game. From the same team that brought you the highly acclaimed guides to Final Fantasy XIII, Final Fantasy XIII-2 and Lightning Returns: Final Fantasy XIII. Quality control: carefully designed to avoid unnecessary story spoilers.
