From Brand: United States Games Systems : Fradella Adventure Tarot before purchasing it in order to gage whether or not it would be worth my time, and all praised Fradella Adventure Tarot:

0 of 0 people found the following review helpful. It's Just The BookBy AmandaWell okay that was partially my own fault a little bit; but I thought this was one of the book/deck listing. I was wrong but I now have the deck and since the LWB is not that detailed because it has companion book I was glad to have it.2 of 2 people found the following review helpful. Enjoyed this tarot deckBy CrystalA departure from the usual, this fun deck uses superhero images from the

iHero Universe, illustrated by Frank Fradella. After all superheroes are often archetypes so why not use them in a tarot deck. I love the color illustrations on this deck. As with all decks it won't be for everyone, but playing with them lifted my heart. The card stock was pretty good, not as thin as most of the recent decks I've come across. Even so, I just love these cards for their images. You might even pick a card for a theme to meditate on for the day. You can search on iHero.net and read a bit about Fradella and the iHero concept. I uploaded a picture of some cards so you can get an idea of what the deck looks like. Enjoy.UPDATE: appears to have changed the listing which was originally for the deck and my posted pictures of the deck are gone. This listing now is only for the book. There is a book and deck set Fradella Adventure Tarot Deck Book Set with Book(s). Sorry if there was any confusion as you can see the older reviews are for the deck not the book.4 of 4 people found the following review helpful. Superhero tarot deck balances comics style and symbolismBy TBWhether you are looking for a deck of finely-illustrated superhero cards or a tarot deck with consistently symbolic imagery, this deck fits the bill. The illustrations offer a superior blend of comic book action type scenes and deeper layers of imagery to inspire reflective interpretation during a tarot reading. I know of no other tarot deck that combines these two different elements with as much originality and consistency.
