Some I had heard before like "my brothers parent who isn't my father" - something like that - but also many that I hadn't heard! I LOVE the way they scattered

the answers in the back, so it isn't easy to accidentally see an answer that you didn't want to see. Some took us hours or days to figure out, but we just gave it time rather than looking for the answers in the back. Fun family time activity :) 1 of 1 people found the following review helpful. By Voracious reader I bought this book for my son and his family. The two children, 10 12, are very bright and are enjoying the brainteasers, puzzles, etc in this book. At Christmas, we had been playing games and later in the evening I noticed that the kids were both bent over the book puzzling out a solution. I was pleased to be able to figure it out when they asked me for help! A fun book for all ages as the conundrums range from very simple to pretty difficult. 1 of 1 people found the following review helpful. I loved it  
By Anna Kovalevich I got this as a gift for my cousin who loves riddles. It's great and I think she is going to love it! I read through the riddles myself and found them stimulating, which means they're going to make my cousin very happy :) the answers are in the back of course, and i found myself laughing to them- all in all, i'm happy.

**Fundrum My Conundrum (A Book of Riddles)** This is a book of 100 riddles, logic puzzles and brainteasers. They have been divided into groups by difficulty. Fun for the whole family.

A fablous book that kept our whole family laughing and working through a snowy winter vacation. The puzzles are great fun with a whole range of challenge. -- George Koons I bought this book on a whim and have bought 15 more for my 8th grade students and their families. I can't tell you how many parents have called to say what a great tool this has been to connect to their adolescent children. -- Kayla Shelton I brought this book to my church group and we all love it. we discuss the riddles over coffee and we have all learned so much. -- Margaret Rosetta

About the Author This book was written when I was 14 yrs old with my grandfather. Our family enjoys doing these puzzles as a group and we hope we can extend the joy to others. Now I am 21 yrs old and want others to experience the family connection that I have.
