So don't pay more then that!!!This book collects the authors 4 "Funn Stuff" books into one volume. Here is what he says:"Funn 'n Games represents a one book compilation of the material represented in the four volumes previously entitled Funn Stuff, and as such, delivers over 300 pages of adventure games, initiatives, trust activities, miscellaneous funn, and seeds of serendipity (including 23 NEW activities not included in Funn Stuff.) I added, deleted, adjusted, rearranged, maintained and rethought the whole Funn Stuff series to offer what is now available, a highly usable games and initiative reference in one book.If you want theory, buy one of those ominous, dark spined books with few illustrations and even less hands-on activities. But if

you want (need) exciting and immediately usable ideas to implement into your program RIGHT NOW, and a few laughs along the way, Funn 'n Games will soon become your "go to" resource."All of Rohnke's works are great resources of games and activities. This is another one to have.0 of 0 people found the following review helpful.
