I know all these codes can be found for free online but it's much more convenient to have this book in hand. Also it keeps you from needing to reference one of the original code books that came with the genie so you can keep that collectible one in good shape and feel free to heavily use this one. It looks good and it's done up nicely.0 of 0 people found the following review helpful. Great fpr that retro feelBy Robert StevensReally cool book to reference when gaming. This is what we used before the internet so it kind of adds to the retro charm of it all.Like other reviewers said this is a bigger book than you would think. Its not a small paperback size its more of a magazine size. Not the flashier of books but it does the job.0 of 0 people found the following review helpful. Couldn't ask for a better reprint!By Finn's DadYou can't display a web page in you NES collection. If you have a NES GG then you of course

need this to display next to it! Very good quality, better than I expected actually. Yes, this is a reprint but it is up to date and looks fantastic!
