Excellent looking, but questionable craftsmanship sturdinessBy TinaIt's a really amazing concept, and very informative and interesting to look at, but it is unbelievable fragile and I am almost afraid to open it because of how much it seems weakly held together. If it were sturdier and I thought it could be opened more than for special occasions, I'd rate it 4 or 5 stars.I would not spend that much money on this product if I'd known of its quality beforehand.
