**From Ingramcontent : Game of Thrones: Three-Eyed Raven (Miniature Editions)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Game of Thrones: Three-Eyed Raven (Miniature Editions):

5 of 5 people found the following review helpful. It's eh.By HollisWay too simple. Can't even see the 3rd eye. Not worth more than \$5 IMO. Still nice if you are a collector though.7 of 7 people found the following review helpful. BummerBy Sandra BirnbachTerribly disappointing. The third eye is nothing more than a little bump and is not recognizable as an eye. Does not compare to TV image.0 of 0 people found the following review helpful. broken on arrivalBy J. Ellen FisherThis item arrived with a broken leg and chips knocked off it so you could see the white resin underneath. I am not returning it since that would be more trouble than it is worth. I colored the white spots with a sharpie. That being said I do like the little thing and if it is not handled too much you can't tell the leg is broken. I don't consider it a bargain when an item arrives needing fixing.

Game of Thrones: Three-Eyed Raven includes a collectible 3 figurine of the raven from the show. Also included is a 48-page book featuring full-color series photography throughout.
