**Doug Walsh : Gears of War 3 Limited Edition (Official Strategy Guides (Bradygames))** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Gears of War 3 Limited Edition (Official Strategy Guides (Bradygames)):

17 of 18 people found the following review helpful. Fantastic guide for Gears fans! By Ionotropic This is a beautifully-crafted 300+ page guide covering everything you need to know to play Gears of War 3. It has a hardback cover, and the silvery cog/skull/lancer art shines and reflects light when the book is held at certain angles. The logo extends across the spine to the back cover as well. The whole guide has gorgeous artwork throughout. The book has an introduction to the main characters, weapons guide, enemy guide, campaign walkthrough with plenty of screenshots,

multiplayer guide covering all modes, and multiplayer map breakdown. Some of the multiplayer tips are very useful, although Gears veterans will know most of it already. There is also an extensive appendix which covers all the game's unlockables, including collectibles, ribbons, medals, mutators, weapon skins, executions, characters, achievements, and avatar awards. There's even a list of the purchasable weapon skins. The bonus content is very nice. There is a code to download a strategy video from Xbox Live Marketplace which covers act 1 of the campaign. You also get access to digital versions of the Gears of War and Gears of War 2 Bradygames guides, which are both huge. There is a nice 12-page preview of the Gears of War comic. I'm not even into comics, but I might have to check the Gears comics out after seeing this preview. There is also a physical soundtrack sampler CD, but I haven't listened to it yet. Overall, this is an awesome guide. If you want help with the game, or you're just a fan who enjoys all things Gears, it is a worthy addition to your collection.

First off.... .. you keep me coming back for more, great job, great buy !Wow, I don't know why I waited so long to buy it, should of bought it the same day as I bought the System..I know you already have ton's of info on the book so I won't bore you w/the details ..lol.. but here's my review,H.B., White platinum, wished it would of matched the Game colors., so any ways you know what it has, but not the contents thats inside, 317pgs of pure awesome-ness, sorry, like all my other reviews I won't tell the contents of each page or any major details, you gotta buy it, but I'll tell you it does give you all you'll need plus some for the game, its well written, these books are getting better by BradyGames, they keep improving and adding things that enhancing the guild's they make.Oh.. at the end of the book you'll get a built in comic book "Special sneak preview of issue #19" a disk, yes a disk not a down load, for the sound track, its only a sampler tho, but worth the added content of the hole book IMO.The only reason I gave this a 4.75 Stars and not 5 Stars, the book arrived a bit dinged up and a few small dents one crease along the bottom edge corner, so I'm giving it a 4.75, this does not reflect on my review of the book, witch I feel is a 5 Star book, if I can find another one in mint shape, I might keep it in its plastic, for the shelf.
