Rob Auten : Gears of War: Judgment: Kilo Squad: The Survivor's Log before purchasing it in order to gage whether or not it would be worth my time, and all praised Gears of War: Judgment: Kilo Squad: The Survivor's Log:

1 of 1 people found the following review helpful. Highly recommend this book if your a gears fan or just love video games!By AngieI love this book!! it gives Damon Baird's account(who is my favorite gear), about his time when he was a lieutenant in the gears before he meet and teamed up with Marcus and Dom. It also gives account about his team known as Kilo squad and goes into the depth about each member including on how and when Baird first met Cole. It was a great read!!!7 of 8 people found the following review helpful. Awesome expansion to the Gears universe.By LouThe kilo squad survivor's log is a neat collection of journal entries written by Damon Baird of Kilo squad during the events that take place during the game Gears of War Judgment. The Survivors log also contains drawings, post cards, aptitude tests of the members of kilo squad, and even the Cole Train's rookie card! These little extras seem to have been shipped right out of the gears universe. The book is meant to look and feel like Baird's Field notebook and the blood and coffee stains on some of the pages really makes it seem believable. Most of the entries are Baird writing

to his parents postmortem but as sad as that may seem the entries are full of Baird's odd sense of humor and are really fun to read. Baird covers everything from his first few weeks enlisted, basic training, the first time he met Cole, Sofia, and Paduk, the battle of Halvo Bay and of course the trial of Kilo squad. I always thought that of all the characters in Gears of War, Baird was the one we knew the least about. The Kilo squad Survivor's Log is a really neat look at Baird's story and adds a lot to Gears of War judgment..3 of 3 people found the following review helpful. awesome bookBy Brett FamilyStill reading the book but so far its great. This is definatly set up to feel like a survivors log. As there are clips that are "taped" into the book like you would expect from a diary/journal. GOW is awesome!!

Written as a collection of notes in Damon Baird's journal, The Survivors Log expands on declassified testimony and other facets of the game and serves as an in-universe artifact within the timeline of the series. This firsthand account chronicles the soldier's experience in a riveting and beautifully illustrated oral history of the events he witnessed and the deterioration of COG society, his decision to take his unit rogue, and stories from the other members of his cohort. Divided into sections on COG society, Kilo Squad, and E-Day, the book underscores the perseverance of Baird and Kilo Squad and highlights key details on Locust forces. The Survivors Log is a genuine treat for fans of the game that USA Today heralded as an intense prequel, as well as an exhilarating expansion and another worthwhile reason to rev up the chainsaws."

"...an incredibly detailed, beautifully put together book that was more than just a video game tie-in, it was a book both lovers of the game and non-fans alike could enjoy.Geekadelphia
