**Thomas Olivri : Geek-Art: An Anthology: Art, Design, Illustration Pop Culture** before purchasing it in order to gage whether or not it would be worth my time, and all praised Geek-Art: An Anthology: Art, Design, Illustration Pop Culture:

2 of 2 people found the following review helpful. Enjoyable book with a great collection of art.By Vincent CarrozzaA great book featuring LOTS of images by many talented artists. The sheer amount of art and the diversity of styles makes it enjoyable to pick up and flick through in random order over many sittings, extending the life of the book.1 of 1 people found the following review helpful. Amazing book! A must have for any lover of ...By MoMoAmazing book! A must have for any lover of the art and nerd world (video games, film, comic books, etc). My boyfriend I love it and have actually ordered a few prints from some of the artists featured because we loved them so much,0 of 0 people

found the following review helpful. Three StarsBy devonIt's cool and inspiring but it's a little more pretentious than the subject matter calls for.

Every age has its artistic inspiration. Medieval artists exalted spiritual subjects. Modernists shifted their attention to humanity and the senses. For a generation of artists and fans today, our heroic subjects are Mario, Pikachu, Spider-Man, Darth Vader, Frodo, and a legion of other iconic figures from the "geek" culture realms of movies, cartoons, video games, and comics. For the first time, Geek-Art collects the work of nearly 100 international illustrators, graphic designers, photographers, and artists whose inspired interpretations of these beloved characters celebrate them with creative brilliance and a true fan's passion. Featuring more than 750 images, this lavish illustrated anthology showcases the inspired energy that drives pop culture and makes geeky fans of us all.

"This volume, curated by Thomas Olivri, is wide-ranging in its geekery. Art inspired by videogames, comic books, movies, '80s cartoons, propaganda posters. You'll see pixel art, photorealistic paintings, minimalist posters, detailed costumes...Olivri's book puts a huge collection in one place, with a brief bio of each artist and URLs for finding more. Geek-Art weighs in at over 400 pages."-GeekDad"It's a collection no superfan should be without!"-mental\_floss magazineAbout the AuthorThomas Olivri grew up loving geek art and culture and never outgrew them. He is the creator of Geek-Art.net, a popular online pop culture community that features art created from these worlds, and hosts gallery shows of the work in Paris, where he lives.
