**Chronicle Books Staff :** **Genius Deck Number Puzzles for Kids (Genius Decks)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Genius Deck Number Puzzles for Kids (Genius Decks):

0 of 0 people found the following review helpful. Genius deck for kidsBy K. HaackThe math and logic puzzles on these cards are a lot of fun. My 8 year old and I solve them together with a pad of paper to work out the puzzles. They are a bit of a challenge, but not so much as to be frustrating. I like how they get my daughter's interest and really get

her to think. The quality of the cards is very good. They are heavy and don't bend easily, and the box they come in is also heavy and nice quality.. The last few cards have the answers to all of the puzzles so you can check your work.

Kids of all ages can stimulate their minds with grid puzzles, magic squares, dot games, and more. The card format makes it easy to share, or you can use a puzzle with the whole class to settle students down in the morning.
