It covers both films, the props, the cartoons (RGB and EGB), the video games, the comic books, and the toys. Some of the material has been made available before, but is increasingly rare--additionally, there is material that is brand new to even the most dedicated fan.While I agree that the "glued in" extras can become an issue if not handled with care, they are not enough for me to reduce the rating. Great care was taken in putting this book together and the effort has certainly paid off!Highly recommended.0 of 0 people found the following review helpful. "Ghostbusters: The Ultimate Visual History is one of the most lavish art books I have ever seen, rich with content, first class production values and beautifully designed. A must own!"--Michael C. Gross, Producer, Ghostbusters/Ghostbusters II"This sumptuous, luscious love letter to Ghostbusters is just like the film it chronicles: hilarious, sweet, irreverent, and thrilling. I read it from cover to cover as soon as it arrived. And I'm in it!! (Sorry my costume isn't that accurate)."--Adam Savage, Mythbusters"A comprehensive, absolutely beautiful book. Brought back many good memories for me. I don't know how they can produce such an elaborate book at this price."--Joe Medjuck, Producer, Ghostbusters/Ghostbusters II"Ghostbusters: The Ultimate Visual History has done what it set out to do and with honors. Its title is no misnomer. If this generation doesn't get a sequel to be proud of, it will still have this publication to at least remember Ghostbusters as a franchise to fondly anticipate. Its a title for youth, its a title for adults; this is a book for any and every diehard Ghostbusters fan."--David Kobylanski, Collider.com With behind the scenes stories, concept art that's never been seen by the public, an intro written by Ivan Reitman himself (plus a foreword by Dan Aykroyd!), this just might be holy grail of gifts for any GB fan in your life.--Blake Rodgers, Nerdist"Ghostbusters: The Ultimate Visual History is a terrific backwards look at how a silly 1984 comedy was, to quote Dan Aykroyd's foreword, 'visually enlivened' into legend... With full access to the Ghostbusters archives, which we assume are guarded by Terror Dogs, this is a chronicle filled with revelations."--Nick De Semlyen, Empire Online
