Mensa, J.J. Mendoza Fernandez, Jaime Poniachik, Tim Sole, Rod Marshall, Karen C. Richards, Lea Poniachik : Giant Book of Mensa Mind Challenges before purchasing it in order to gage whether or not it would be worth my time, and all praised Giant Book of Mensa Mind Challenges:

3 of 4 people found the following review helpful. The English language is not the strength of this bookBy (Rt. Rev.) Mar MelchizedekIt's an ok brain teaser book, some of it perhaps a bit far-fetched. It seems to also contain more math classroom type challenges than actual brain teasers. Unfortunately, this book has poor English grammar and composition.0 of 1 people found the following review helpful. Fantastic!!!By Robert EatonPut your mind to the test, this book will definitely challenge your mind!! Fantastic!!0 of 1 people found the following review helpful. Five StarsBy Customerverygood

Take the Mensa challenge! These extraordinarily entertaining puzzles can confound even those with high IQs-and

that's what makes them such delightfully tricky fun. A few can be solved relatively quickly, but the hardest may seem nearly impossible to crack. Give your skills a real workout on numerical conundrums, word games, lateral thinking problems, and riddles. Brainteasers, arranged in order of difficulty, train the mind and provide a good time all at once. The most complex bafflers include chess, logic, and spatial puzzles. Here's a small sampler of what's inside! A farmer has twenty sheep, ten pigs, and ten cows. If we call the pigs cows, how many cows will he have? Which three boys' names are anagrams of one another? Answers: 1. Ten cows. We can call the pigs cows, but that doesn't make them cows. 2. Arnold, Roland, and Ronald.
