before purchasing it in order to gage whether or not it would be worth my time, and all praised Glitter Fantasy Butterflies Stickers (Dover Little Activity Books Stickers):

Good Product By LM There are only a few stickers (two small pages worth - about 16 stickers total), but they are very good quality and visually appealing. I bought them for an adult friend's Christmas

stocking. They would be a good gift for a scrapbooker, butterfly-lover, or child. Additionally, the shipping for this item was incredibly quick - arrived almost a week BEFORE the "estimated delivery date" (arrived approximately a week after the payment was sent). Very satisfied with this product as well as the shipping time. 0 of 0 people found the following review helpful. Most beautiful! By Carolyn K. Gordon I'm always impressed with Dover's products so I wasn't at all surprised to be delighted with this little booklet of butterflies.

Which butterfly is the prettiest of all Monarch, Buckeye, Swallowtail, Painted Lady? None of the above! The most beautiful species just might be these fantasy flyers, featuring wings with abstract shapes and more colors than Mother Nature has in her paint box. Plus, each is sprinkled with glitter so these butterflies really shine. A nice embellishment for kids' cards, posters, and notepads.
