**Charles H. Goren, Omar Sharif : Goren's New Bridge Complete** before purchasing it in order to gage whether or not it would be worth my time, and all praised Goren's New Bridge Complete:

It was worth the price because it has all the card play in the second half. I set up classes to TEACH from his NEW version. This book should not be advertised as something it was not. Maybe insert OLD for new and then it covers his old theories as opposed to what he finally accepted 44 years after his first edition. Worth \$4 but not what I thought I was going to receive. The book doesnt have New in the Title like the 1986 book does.0 of 0 people found the following review helpful. Goren on bridgeBy Customerlove this book.
