When it came in I was pleasantly surprised by the quality of the book. Its a pretty large hardcover book, that just has page after page of international graffiti with snippets about some of the more well known artists and their inspirations for some of their pieces. Really neat book to flip through and read pieces from.Only complaint would be the packaging. A bit of the cover was bent because of how it was packed and upon arriving the fold has created a pretty large crease in the paper cover surrounding the outside of the book. The book itself is great however, so I won't be deducting any stars from my rating.0 of 0 people found the following review helpful.
