I'm not sure what mistakes other people say here are true for I honestly haven't examined it to the core, though mostly it is what it is; a guide. Lots of needed bonus features included specific weapons, cars, places, people were there which I appreciate the most in these books. The pages are filled with pictures and texts and were durable and thick. It also includes a poster in the back. Any obvious San Andreas fans out there, this is it. 0 of 0 people found the following review helpful. BEWARE: Great Guide but sometimes without bonus map By Customer Wonderful piece of history. Wish it hasn't gone out of print. Bought 2 of them, one came with the bonus map, the other one didn't. I wouldn't even mind the scratches of use over the cover, but missing the map is what really killed this review by one star. One of them was supposed to be a gift, the other one for me. Shame :/ 1 of 1
