Although it was planned, itwas a pleasant surprise that (between the three books), there was a perfect amount of hard enough to really difficult puzzles...I am very pleased.0 of 0 people found the following review helpful. Four StarsBy CLWThese puzzle books are great!

Griddlers logic puzzles, also known as Picross or Nonograms, are picture logic puzzles in which cells in a grid have to be colored or left blank according to numbers given at the side of the grid to reveal a hidden picture. Some people compare Griddlers to Sudoku. However, the Griddlers puzzles always reveal a nice image as a result. This book

consists of 155 Griddlers puzzles, from small and easy up to big and complicated ones that may take several hours to solve. The solutions of the puzzles appear at the end of the book.
