Of all the different books with these types of puzzles, this series is the best, hands down. I've never found a mistake in them, but I have in other puzzle books by other publishers.0 of 0 people found the following review helpful. Five StarsBy BARothSome really good puzzles. They aren't all republications of puzzles from previous volumes.

Griddlers logic puzzles, also known as Picross or Nonograms, are picture logic puzzles in which cells in a grid have to be colored or left blank according to numbers given at the side of the grid to reveal a hidden picture. Some people compare Griddlers to Sudoku. However, the Griddlers puzzles always reveal a nice image as a result. This book consists of 158 Griddlers puzzles, from small and easy up to big and complicated ones that may take several hours to

solve. The solutions of the puzzles appear at the end of the book.
