I got this so I could do the puzzles quickly during meetings so I can focus on the speaker (i am an auditory learner and the math and pencil action help me focus). I do not do the puzzles specifically for the picture, so all of the volumes are equally satisfactory to me. I like how the puzzles are laid out so there is little smudging from puzzle to puzzle (I am left handed and a hand-dragger). The first several puzzles are easy enough for my 12 and 10 year old to do, and the instructions are very clear. Wonderful alternative for those who do the Conceptis examples in the Games World of Puzzle books, but with a lower level of difficulty.Really happy with it.0 of 0 people found the following review helpful. Five StarsBy Marilyn D.Great option for working griddler puzzles and there are not many!

Griddlers logic puzzles, also known as Picross or Nonograms, are picture logic puzzles in which cells in a grid have to be colored or left blank according to numbers given at the side of the grid to reveal a hidden picture. Some people compare Griddlers to Sudoku. However, the Griddlers puzzles always reveal a nice image as a result. This book consists of 143 single Griddlers, 4 Multi-Griddlers and 4 Triddlers. The solutions of the puzzles appear at the end of the book.
