This book represents an improvement over the last one (Vol. 6, in that the cover was of a better quality and did not roll up sideways with use. The selection of puzzles could have been improved, however. Many of the larger ones were portraits: the borders were relatively easy, but as one worked toward the center, you got "lost in the ones and twos". It was a bit tedious to see so many similar puzzles.0 of 0 people found the following review helpful. I love this bookBy Graciela GonzalezI love this book. I'm not good at doing black and white puzzles but this one gave me the practice I needed.

Griddlers logic puzzles, also known as Picross or Nonograms, are picture logic puzzles in which cells in a grid have to be colored or left blank according to numbers given at the side of the grid to reveal a hidden picture. Some people

compare Griddlers to Sudoku. However, the Griddlers puzzles always reveal a nice image as a result. This book consists of 167 Griddlers puzzles, from small and easy up to big and complicated ones that may take several hours to solve. The solutions of the puzzles appear at the end of the book.

About the AuthorGriddlers team is a leader of an online community dedicated to logic puzzle games. The Griddlers team creates variety of logic puzzles, from the well known Sudoku through several similar number logic puzzles like Kakuro, KenKen, Futoshiky, Skyscrapers, and Binary.
