I'd try markers instead but the squares are so small I wouldn't be accurate enough. Also, the colors are so obscure that despite having a 50 pack of colors to choose from, I still felt like my colors weren't accurate enough. Finally, the pictures I have completed have been boring and unimpressive. Wouldn't recommend. 0 of 0 people found the following review helpful. Five Stars By jwhfun puzzles!

Griddlers puzzles, also known as Griddlers or Nonograms, are picture logic puzzles in which cells in a grid have to be

colored or left blank according to numbers given at the side of the grid to reveal a hidden picture. Some people compare Griddlers to Sudoku. However, the Griddlers puzzles always reveal a nice image as a result. This book consists of 64 color Griddlers puzzles, from small and easy up to big and complicated ones that may take several hours to solve. The solutions of the puzzles appear at the end of the book.
