griddlers team : **Griddlers Logic Puzzles: Kakuro (Volume 1)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Griddlers Logic Puzzles: Kakuro (Volume 1):

3 of 3 people found the following review helpful. The author has a strange puzzle format which is not ...By Lois NeateThe author has a strange puzzle format which is not explained in the directions and is very difficult to determine. For example, 0's are used, though the directions say only the numbers 1 through 9 are used.4 of 4 people found the following review helpful. This is one of the best and most difficult kakuro books I've doneBy rickbThis is one of the best and most difficult kakuro books I've done. There are a very few easy ones in the beginning and then it is fun. I still have 5 puzzles I keep going back to because I haven't solved them yet. This ranks up there with Absolute Nasty Kakuro Vol 3 and 4. I am looking forward to doing additional volumes by Griddlers.0 of 0 people found the following review helpful. Five StarsBy Customerlove it.

Kakuro is played on a grid of filled and barred cells, "black" and "white" respectively. Apart from the top row and leftmost column which are entirely black, the grid is divided into "entries" - lines of white cells - by the black cells. The black cells contain a diagonal slash from upper-left to lower-right and a number in one or both halves. These numbers are called "clues". This book contains 228 Kakuro puzzles from small and easy up to large 17x17 puzzles.

About the AuthorGriddlers team is a leader of an online community dedicated to logic puzzle games. The Griddlers team creates variety of logic puzzles, from the well known Sudoku through several similar number logic puzzles like Kakuro, Kalkudoku, Futoshiky, Skyscrapers, and Binary. Their best puzzles are Griddlers, also know as Nonograms or Paint by Numbers, with a special three directional variant named Triddlers. Griddlers are not only traditional black and white puzzles but also puzzles in color or containing triangles. Several griddlers puzzles can be combined into one Multigriddler.
