**Griddlers Team : Griddlers Logic Puzzles - Triddlers Color (Volume 1)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Griddlers Logic Puzzles - Triddlers Color (Volume 1):

So overall this was a disappointment. I'm returning itBy Carson HendricksClearly not as advertised. The first half of the pages in the book were a kids book. I'm not joking, it's a book about a chicken that thinks it's a turtle "Chicken Pot Turtle" was the title IIRC. Was this a printing error? Or are they just trying to make their very short book look thicker at first glance? The second half was the 40 pages of puzzles as described, but a lot of them were kind of small, and crammed onto the same page as another puzzle. So overall this was a disappointment. I'm returning it.

Triddlers puzzles, variant of iGridd, also known as Griddlers or Nonograms, are picture logic puzzles in which cells in a grid have to be colored or left blank according to numbers given at the side of the grid to reveal a hidden picture.

Some people compare Griddlers to Sudoku. However, the iGridd puzzles always reveal a nice image as a result.
