Absolutely incredible!By Joe M.I bought this on a whim to satiate a lifelong love of the Gradius franchise, but was amazed how much content, facts, and research went into this book. I bought the kindle copy, but will be upgrading to a physical copy immediately!If you love SHMUPs, Konami, Gradius (and more), video games - you should definitely pick this up.6 of 6 people found the following review helpful. A Deep

Dive Into Konami Shooters By Jeffrey L. Wilson I purchased this book for deeper knowledge about the tangled mess that is the Gradius and Life Force home video game ports, and learned far more about Konami shooters than I ever expected. The Unofficial Guide to Konami Shooters packs history and gameplay descriptions into a very solid book that boasts tons of screenshots. My only gripe? I caught approximately 3-4 typos that probably would've been caught with one more proofread. 2 of 2 people found the following review helpful. Super comprehensive write-up about the history of Konami shmups By twelvebsix Super comprehensive write-up about the history of Konami shmups, which is extensive. Written pretty informally/conversationally too, which is kind of a relief. Tons of pictures, well researched, and also a lot of opinion on the games themselves, which I appreciate. Love the book, now I want to get the others.

Shoot the core! Join retro gaming website Hardcore Gaming 101 to explore Konami's many contributions to the shoot-em-up pantheon, including Gradius, TwinBee, Parodius, Otomedius, Life Force, Salamander, Axelay, Thunder Cross, Space Manbow, Xexex, and many others!
